CABIN WASHING MACHINE SERIES

HIGH PRESSURE HOT WATER WASHING SYSTEM

HIGH PRESSURE CABIN WASHING MACHINE

HPWM800 - HPWM1100

www.kspmachine.com

HPWM series cabin washing machines has been designed for cleaning of small, complex components with high pressured water.

The pump which operated by footswitch allows hands free cleaning; and provide better control to the operator.

The high flow rate pump allows outstanding performance for perfect cleaning results.

The heated water which heated by an efficient heating system is increasing washing quality. And insulated washing tank reduces energy consumption.

The washing cabin is well illuminated by a lamp; monitoring is provided through glass and an air jet cleaning system which ensures continuous excellent visibility during washing operation. The machine is also equipped with air gun for drying of the parts after washing. There are two stages filtering inside. First filtering has been done through to stainless steel basket filter can clean easily. Second filtering has been done by a filter has higher filtering capacity.

A digital display shows the operating temperature for optimal cleaning performance and Manometer shows pump pressure continuously.

TECHNICAL SPECIFICATIONS

	HPWM800	HPWM1100
Dimensions working area (mm.)	800x550	1100x700
Loading height of the part (mm.)	800	800
Loading capacity (kg.)	70	100
Tank capacity (lt.)	70	120
Pressure pump (up to 60 bar)	55,0	55,0
Pressure regulating valves	standard	standard
Manometer	standard	standard
Pump capacity	1 piece x 3,0 Hp	1 piece x 3,0 Hp
Pump flow (lt / min)	14	14
Heater (kW)	7,5	10
Electric (V / phase / Frequency)	220-380-415 / 3 / 50 Hz-60 Hz	220-380-415 / 3 / 50 Hz-60 Hz
Air supply (bar)	6-7	6-7
Temperature	0-50°C	0-50°C
Foot switch	standard	standard
High pressure water gun	standard	standard
Stainless steel filter basket	standard	standard
Air gun for drying	standard	standard
Interior Lighting	standard	standard
Air jet cleaning windows	standard	standard
Cleaning Wiper	optional	optional
Articulated upper cabin	optional	optional
Stainless steel body material	standard	standard
Magnetic Front Door Locking System	optional	optional
